

## TREE CROP MANAGER

Logic Forest Solutions is a small, hardworking team specialising in harvest management, harvest engineering and forest management and inventory.

Logic FSL has a strong culture built on individual commitments, open communication, delivering on promise and honesty.

We are looking for an experienced Tree Crop Manager to join our team. This is a diverse, hands-on role with a strong focus on forest management and customer liaison.

### **The role includes:**

- Forest Management
- Customer liaison
- Forest operations – establishment, silviculture and day to day forest management
- Contractor management and crew supervision
- Survey assistance with harvest engineering
- Experience in harvesting and roading

### **Key attributes include:**

- Experience in forestry operations
- An enthusiastic and positive attitude
- Be a 'self-starter' and able to work unsupervised
- Hard working, fit, with a love of the outdoors
- A personal commitment to assisting with the growth of the company
- Computer literate (data input and Word/Excel)

This is a great opportunity for a motivated person seeking an exciting career in forestry with flexibility, variety and learning. This is a permanent, long term position based in Gisborne with contracts extending to southern and central North Island.

A competitive remuneration package will be offered to the right person. Please email your CV to Logic Forest Solutions Limited at [admin@logicfsl.co.nz](mailto:admin@logicfsl.co.nz) or send to PO Box 1057, Gisborne.

Closing date for applications is Friday 22<sup>nd</sup> September 2017.
