

LOGIC
Forest Solutions Ltd

Senior GIS Analyst

Logic Forest Solutions is a progressive company with operations and expertise spread across the forest industry. We operate predominately in the Gisborne and Northern Hawkes Bay region and also more broadly across New Zealand. We have a talented team of professionals that specialise in all aspects of commercial forestry and land use solutions working towards our vision "To lead the way in innovative forestry management".

We are offering an opportunity for an energetic and self-motivated person to join our team in the position of Senior GIS Analyst. This role requires experience in all aspects of Geospatial systems and offers the opportunity to put your stamp on systems and processes.

Key duties and responsibilities:

- Ongoing development and growth of Geospatial systems.
- Progress Geospatial systems to more efficient use through staff training, support and utilisation.
- Develop whole business access to Geospatial information through portals, web maps or other tools.
- Review and manage the geospatial data of the business including standards, domains, data accuracy, sources, and storage.
- Work with the Forest Certification system to ensure data is prepared, maintained and accurate.

Significant attributes:

- Strong and proven experience in managing GIS systems and data.
- Proficient user of Esri GIS software, ArcMap, ArcPro, ArcGIS Online, Atlas GeoMaster.
- GIS qualification.
- NZ Forestry experience ideal.
- Strong organisational & time management skills.
- A high degree of accuracy.
- Excellent interpersonal & communication skills.
- Ability to work on own and as part of a team.

This is a full-time, permanent position.

A full job description is available on our website or by email. Please email your CV to madeleine@logicfsl.co.nz by Thursday 8th February 2024.
